MEDICINAL

The powder puff may help to hide the ravages of time but it is little to hide the ravages of disease. When the face is disfigured by eruptions, the treatment must go below the surface to the blood, which is corrupt and impure.

Dr. Pierce's Golden Medical Discovery cures disfiguring eruptions which are caused by impure blood. It cures scrofulous sores, erysipelas, boils, pimples, eczema, salt-rheum and other eruptive diseases which impure blood breeds and feeds.

"I was troubled with eczema from the crown of my head to the soles of my feet," writes Mrs. E. J. Quick, of Case City, Kansas, Co., Mo. "I could not walk at times nor wear my shoes. I thought there was no help for me—at least the doctor said there was none. I went to see the good Dr. Pierce's Golden Medical Discovery had done for them, and was advised to try it at once. For fear that I might neglect it, I had sent to the village and got a bottle and been getting worse all the time. I took thirteen bottles of the 'Golden Medical Discovery' and ten vials of Dr. Pierce's Pleasant Pellets, and used 'All-Healing Salve,' which made a complete cure. It was slow, but sure. I was taking the medicine about eight months. I would say to all who read this: try Dr. Pierce's Golden Medical Discovery before wasting time and money."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains; you lose. Therefore accept no substitute for "Golden Medical Discovery."

Dr. Pierce's Pellets cleanse the clogged system from accumulated impurities.

ALL OVER THE HOUSE.

Portable Ironing Cases That Many Will Find Convenient.

Ironing in its best estate could never be said to have about it any of the flavor of the interesting and novel, and yet a woman has invented for her own use a quaint and ingenious method of conducting that homely household rite that sets it upon a pedestal for the time being.

She has arranged what she calls a portable ironing case, and it is so simple and useful that it ought to be widely disseminated for the use of those who must flit from room to room in the moving season or who own a hall bedroom and a gas jet.

And how many women and girls know perfectly well that unless they can have the use of an iron occasionally their laundry bills will run up into a terrifying amount.

With the ironing case all is made easy. The first thing necessary in the care of the person is a neat and orderly arrangement of the stocks and cuffs and handkerchiefs. Ribbons, if they could have a bit of a pressing between flannels, would renew their youth, and stockings and dollies come in for their share of the same need.

Most boarding places distinctly say, "No ironing and washing allowed." This is to stem the tide of young women who would rush into the kitchens of busy houses or would monopolize the bathroom. With a set bowl or ordinary basin the tiny wash can be wrung out and dried, but the ironing has always been the problem.

To make a case purchase first of all a little sadiron, and you will find it the jolliest sort of company. It is the king pin of the whole box and is just two inches long in the keel, so to speak.

It is inexpensive and has a removable handle and is exactly like the grown up iron, only very small.

The second requisite is a stick of wax of any of the best known grades. The third requisite is a small board such as any ten cent store keeps for bread cutting, and the last is a square of sandpaper. These with a small traveler's heating lamp complete the outfit. The whole may be placed in a small wooden starch box and packed in the trunk along with the other necessities for the toilet.

English Tea Cakes.

When visiting in the home of an Englishwoman, I had for tea some of the most delicious tea cakes I have ever tasted, writes a correspondent for the Woman's Home Companion. She called them English currant cakes. The recipe is as follows: Two cups of flour, a pinch of salt, two heaping teaspoons of baking powder, one-half cup of butter, one and a half cups of currants, two tablespoons of finely chopped candied orange peel and milk enough to make a soft dough. Mix all dry ingredients together, soften butter and dripping and rub well into flour; add milk enough to make soft dough and roll out on floured board till about one-half inch thick; cut in rounds the size of a tea plate, put in a greased tin and bake till light brown. When done, cut in two and spread thickly with butter. Serve hot. These cakes will keep good and can be warmed in the oven when wanted.

Brush Handles and Backs.

The backs and handles of ebony brushes should be rubbed over with a very little boiled linseed oil after washing and then rubbed with a soft duster till every vestige of oil is removed. Special care is needed in cleaning initials on these, and only a very little slightly moistened whiting should be used, or it is apt to leave a nasty white mark on the wood, which is extremely difficult to remove. In brushing the whiting off after cleaning be careful not to scratch the ebony, for once scratched it is spoiled.
